All-in-One

Portable LED Conferencing Unit

Designed for simplicity, mobility, and performance, the AVPartners All-in-One LED Conferencing Unit delivers instant impact, wherever you meet.

AVPartners®

GLOSHINE

Electric Lift System

Effortlessly adjust the screen height by up to 700mm for the perfect viewing angle. The smooth, motorised lift supports quick positioning in any environment and pairs with the folding design for total mobility and ease of transport.

AVPartners®

GLOSHINE

Flight Case

Pre-assembled and packed in a custom flight case for safe transport. Simply unpack, unfold, and power on with no complex setup required.

AVPartners®

GLOSHINE

Display Performance

HD Visual Clarity
High-definition LED display delivers vivid colour, sharp detail, and smooth motion, perfect for presentations, conferencing, and broadcast environments.

Comfortable Viewing Experience
Anti-glare surface reduces eye strain for long sessions while maintaining exceptional brightness and visual comfort.

AVPartners®

GL⊗SHINE

Mobility

Equipped with a sturdy lifting stand base and heavy-duty universal wheels for effortless mobility and stable positioning. Designed for frequent relocation and rapid deployment, ensuring smooth, reliable movement between spaces.

AVPartners®

GLOSHINE

Smooth Operation

Smooth motor control with reduced noise and soft start/stop technology ensures quiet, reliable operation. The gentle acceleration and deceleration system minimises mechanical stress, enhancing long-term performance and making it ideal for offices, studios, and other sound-sensitive environments.

AVPartners®

GL⚫SHINE

Dual OS System

Integrated Android and Windows platforms for flexible use across applications. Switch seamlessly between systems for optimal performance.

Product Specifications

	135"			163"	
Model No.					
Pixel Pitch	1.56	1.56	0.78	1.87	0.93
LED Type	SMD 1212			SMD 1515	
GOB / HOB	GOB/HOB	COB	COB/MIP	GOB/HOB	COB/MIP
Aspect Ratio	16:9				
Resolution	1920x1080		3840x2160	1920x1080	3840x2160
Dimensions W/H/D (Overal)	3020x1708x55mm			3606x2032x47	
Dimension W/H/D (Screen)	3000x1687x40mm			3606x2032x55mm	
Maintenance	Front				
Brightness	500-700 nits		600-800 nits		
Colour Temperature	2500~9500k				
Max Power Consumption	≦ 500w/m²	≦ 380w/m²		≦ 500w/m²	≦ 380w/m²
Average Power Consumption	≦ 250w/m²	≦ 190w/m²		≦ 250w/m²	≦ 190w/m²
Viewing Angle	H:160° V:140°				
Refresh Rate	3840Hz				
Grayscale	13~16 bit				
Working Voltage	AC100-240V~50/60Hz OR AC200-240V~50/60Hz				
IP Rating	IP30				
Operating Temperature/Humidity	-20℃~+45℃ | 10%-60%RH				
Storage Temperature/Humidity	-40℃~+60℃ | 10%~60%RH
